Dear Mr. Suro,

I phoned you yesterday on the chance there might be a followup.

If there was I wanted you to know that a source was misusing you, as my enclosed letter to the associate attorney general makes clear.

Sorry I have no extra copies of Whoring with History: How the Gerald Posners Protect the King Assassins.

I think that after his mistitled Case Closed the FBI helped him with this book including by providing him with records, his research.

I think my manuscript makes the case.

He cites innumerable FBI records but does not know how to cite many if not most of them. If he did his own research he's be able to cite what he used correctly.

And there is not a word in his book to which the FBI could take exception or object to in any way.

Sincerely,

Harold Weisberg
